Bitzer (Portugal)
Compressores para Frio, S.A.

WORKS CERTIFICATE

COVERING THE ACCEPTANCE TESTING OF A COMPRESSOR

Information on nameplate:

Manufacturer: **BITZER Kühlmaschinenbau GmbH**
Made in E.C.

Type: 2CC-4.2-40S **Serial No.: 1272704207**

To be used as: Compressor for refrigerant or refrigeration equipment, in accordance to the technical regulations and standards.

The compressor has undergone the following acceptance tests:

1. Pressure testing:	a) suction side with	36,4 bar
	b) discharge side with	36,4 bar
2. Leak testing:	Integral leaking test with helium	
3. Capacity test:	An end vacuum of 20 to 40 mbar is pulled by the compressor itself	
4. Test run:	to check lubrication, functions and performance	
5. High voltage test *):	2600 V * **Time:**	1 sec.

The refrigeration capacity corresponds to the information given in the technical data.
The compressor is charged with a protective gas.

*** only with motorcompressors**
