\* Ratings at 45 °C condensing temperature

\* Demand cooling is required on low temperature R22 applications

\* Compressor pricing includes

- Oil pressure switch (OPS1)
- Ester oil charge
- Crankcase heater
- Part wind motors from model D2DB50X onwards
- All D4 models are fitted with 1 x inactive capacity regulating head standard
- All D6 and D8 models are fitted with 2 x inactive capacity regulating head standard

\* For capacity control add the capacity control solenoid coil (2865774)

\* Applications below -32c saturated temperatures require head cooling fans
