

CO₂

The Danfoss CO₂ Gas Cooler Solution

High pressure controller – EKC 326A

3rd generation gas cooler controller EKC 326a

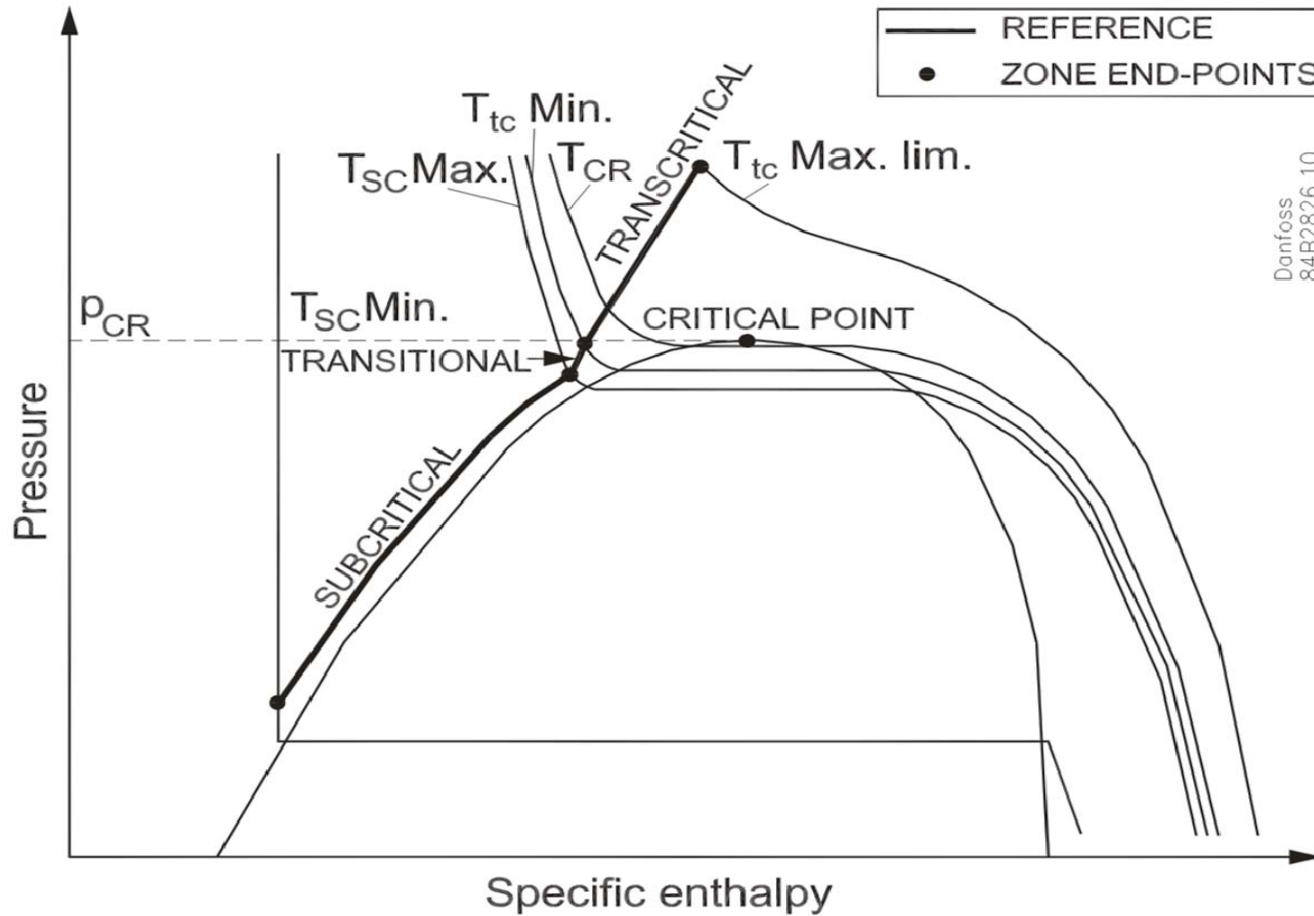

New features

- Optimum COP gas cooler control
- Control of receiver pressure together with the ETS valve
- Heat reclaim with 0-10V signal
- Optimum capacity control via digital signal (approx 5% extra capacity with the same system)
- Use of radiometric pressure transmitters
- Supports 60, 100 and 160 bar pressure transmitters type AKS 2050
