

- | | |
|--|---|
| 1. Liquid injection valve | 13. High pressure switch |
| 2. Thermostatic expansion valve | 14. Road discharge check valve |
| 3. Heat exchanger (for Xarios 200 only) | 15. Standby discharge check valve |
| 4. Check valve (option) | 16. Standby compressor |
| 5. Sight glass | 17. Accumulator |
| 6. Filter drier | 18. Klixon (for liquid injection valve) |
| 7. Shut-off valve | 19. Road compressor |
| 8. Receiver | 20. Low pressure switch |
| 9. Condenser | 21. Starting valve |
| 10. Condenser closing valve - normally open (option) | 22. Hot gas valve (normally closed) |
| 11. Relief valve RV | 23. Defrost element |
| 12. Control pressure switch | 24. Evaporator |

Figure 1-13 Heating and defrost Cycle - over 22 bar
